

3DVS

At-a-Glance

ISM's 3D Visualization Services (3DVS) allows organizations to visualize a project virtually, instead of through traditional methods. Everything from design, lighting, and materials can be worked out in advance for cost avoidance and upfront return on investment.

ADVANTAGES

- * Superior Visual Tool
- * Cost Avoidance Concept
- * Concise Presentations
- * Reduces Turnaround Time
- * Obtain Critical Feedback
- * Fulfills Client Expectations

"[The Pre-sell Open House] Event went great. We don't have a final tally yet, but I think that we sold 12 units! One agent wrote 3 contracts in the RV while (the presentation) was going on. Thanks a bunch for the help. We still have a little way to go, but this is a phenomenal start."

"It's really unbelievable news, I never would have guessed it and I have complete confidence in the project. Thanks again."

James Cole

**Owner, Briar Patch Advisors
29-Unit Townhome Complex
in Charlotte, NC**

Expand Your Clients' Vision

ISM 3D Visualization Services (3DVS) provides a powerful competitive advantage in designing and promoting your project thereby reducing expensive multiple changes and oversights from inception to completion. ISM imports 2D blueprints and schematics created in CAD applications (such as AutoCAD, Maya and Revit) into game engine software to create fully immersive 3D virtual walkthroughs.

Unlike other visualization companies, ISM 3DVS offers:

Customizable visually-immersive technology

Are your clients having difficulty visualizing new construction or remodeling projects? ISM's 3DVS fully immerses your client in their surroundings. Walkthroughs that clients have become accustomed to are now fully interactive. Our 360° viewing technology enables the client to virtually navigate through a property providing the best presentation of the space.

Change material, colors and real-world lighting on the fly

Can't decide on the materials or colors you would like to use, or have a few options you are considering? Our material wheel gives you the ability to cycle through your options and make selections — allowing you to get it right the first time! We can also simulate the external environment as well as time-of-day lighting with our integrated sunlight simulator.

Laser distance measuring

Don't want to break out the floor plans to understand a given distance? We have you covered. Now you can quickly and easily measure any distance with our Laser Distance Measurer. Boom! Instant Distance!

Now it's time to put your project into Virtual Reality! **Let ISM 3DVS help you step up your game and bring your project to life!** We are confident that you will be satisfied with our service beyond your expectations.

Founded in 2004, ISM Services, Inc. quickly established itself as a leader in the development and implementation of Comprehensive Facilities Management Services. With an ever-growing staff of hand-picked experts, we now offer a wide variety of services. Our solutions are delivered with the right combination of leading-edge technologies, years of experience, and unparalleled support.

Our Mission is to provide our customers with comprehensive, proactive Programs and Services that exceed requirements and are delivered on time, every time; have personnel with the vision and knowledge to recognize the future needs of our customers and develop new applications to meet their needs; provide best-in-field and best-in-business practices for streamlined, efficient planning and execution; and are the best value for the money.

Services and Solutions

Design Services

- Computer-Aided Drafting and Design (CADD)
- 3D Visualization Services (3DVS)
 - Architectural
 - Training
- Mobile Applications & Gaming
- Large-scale Printing & Copying
- 3D Printing

Technical Furniture

- Assembly
- Installation
- Relocation

Workplace & Asset Management Solutions

- Integrated Workplace Management System
 - Value-added Reseller & Implementation Specialists for ARCHIBUS®
- ISM Key Control for ARCHIBUS
- Environmental Health & Safety for ARCHIBUS

Software Solutions

- Application Development
- Web Development
- Software Migration
- ARCHIBUS Customization & Personalization
- Application Maintenance, Up-gradation, and Integration

ISM Services, Inc.'s expertise, knowledge, and services sets us apart in our capability to partner with clients and achieve strategic and operational goals. Our team of experts brings the knowledge gained from a wide range of projects. We recognize that our future is based on our ability to establish and maintain long-lasting relationships with our clients.

Adapting Technology to a Changing World
